

Important Safety Medication Information

Please review the following information. It contains critical warnings from the FDA regarding medications you may be prescribed. For any questions, consult your healthcare provider or another licensed healthcare professional.

Note: Medications prescribed through MedFit Health are compounded medications. These are meticulously prepared in licensed pharmacies. While their efficacy and safety profiles may not be directly comparable to commercial drugs, they are customized to meet individual patient needs. Discuss with your provider the specific risks and benefits associated with the use of compounded medications. The following list of safety data is provided for convenience and should not be used as a basis for determining the safety and efficacy of any compounded medications.

Medical Weight Management Medications (GLP-1s)

Semaglutide
(Active Pharmaceutical Ingredient in Wegovy®)
